	TOTAL	£19,584.88

Funding impact on pupils:

Date updated: July 2020

School Games Mark Gold

Alexandra school was awarded **School Games Mark Gold** for the third year running in July 2020. As the school year was affected by Covid-19, the award was given to the school as it achieved gold the previous year. The school also received a recognition certificate to acknowledge the hard work done towards PE and school sport in the Autumn and Spring term. In order to achieve the Gold Kitemark we had to meet the following criteria:

- Provide all students with a minimum of 2 hours of PE per week and extra curriculum provision.
- Engage at least 50% of students in extra-curricular clubs
- Talented pupils are given specific support to help them develop their sporting potential.
- There must be at least 9 intra-school events across different sports
- There must be at least 9 inter-school events across different sports
- Alexandra have to enter 4 'B' teams in to competitive events
- Alexandra must enter 1 'C' team in to competitive events
- Promote school games events once a fortnight and regularly feature match reports and competition results (We promote our schools sport regularly through our @Alex newsletter and via the school website).
- Engage at least 20% of students in leading, managing and officiating school games activities (The children lead through their roles as team captains.)
- Have a child-led school sport organising committee
- Utilise sports coaches to support school sport.
- Train wider school staff to support school sport.

To increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.

Impact has been:

- Increased pupil participation in borough events including a wider variety of sports (211 pupils before events were cancelled due to Covid-19 – see participation diary above)
- The school would have participated in 37 events this year. This is an increase from 22 the previous year. Some of these events were the first time the school had competed in them.
- Training sessions led by PE lead or other members of staff before events to foster a greater sense of team spirit and practise skills.
- Weekly Inter school football matches with St Pauls School (approximately 8-10 children participating per week. A mixture of boys and girls with a different year group each week.) Targeted children were those who had never competed in a sporting event. More children were attending this as a way to enjoy sport with more of their peers.
- Links developed within wider community with participation in community events. Spartans Basketball (a local basketball company run by Basketball England All Girls Ambassador and Tiffin Boys teacher) led sessions and asked the school to participate in events. One of the Year 6 students was offered a paid scholarship to his club. TEN project (a local tennis charity) was going to be inviting the parents and children from across the school to join in their family community events on weekends at local tennis clubs around

Kingston. The emphasis going forward is for parents and children (families) to have fun and engage with each other, further the learning of their child, become physically active as a family and also meet other families.

- The whole school was going to participate in sports day – from Nursery to Year 6. Unfortunately, this was cancelled due to Covid-19.
- Sports Week was cancelled due to Covid-19, so the children were not able to participate in activities led by external, local providers. However, Year 6 children participated in the London Youth Games Virtual Games which ran from 8th June to 4th July. Extra PE sessions were allocated to each bubble that returned to school in the Summer term to allow them more time outside to engage in sporting activities with their peers.
- Wide range of sports and activities on offer with brand new equipment. Additional resources have been purchased, increasing the number of physical activities that can be played at break and lunchtimes. Playtime and lunchtime sports rota gives all children the opportunity to play different sports per week. Higher level of participation at playtimes due to increased sports activities in the MUGA. The MUGA has enabled sport and fitness to take place throughout the school day as PE lesson timetabling no longer impacts the playground timetable.
- Our outdoor gym equipment has continued to be extremely popular with the whole school and has increased the variety of daily exercise activities available to children.
- Our Daily Fitness offer includes running the Daily Mile, Skip 2B Fit and using the outdoor gym equipment. Daily Fitness is timetabled for Reception children up to Year 6 and lasts for 15 minutes. A wider and differentiated range of activities during the allocated slot has seen a greater increase in children being active. Teachers have reported an increase in concentration levels in the classroom after completing a Daily Fitness activity.
- Alexandra offer a wide range of extra curricular clubs for pupils, including ballet, football, karate, multisports, Zumba and basketball.
- All sports news and information is reported in the school's weekly newsletter and on the school website. Since the appointment of a Communications Officer
- P.E Lead updated creative curriculum for all year groups to ensure a wealth of sports offers with progression of skills. This will be looked at continually to ensure children are accessing a wide range of activities and sports, developing skills and retaining knowledge of what they have learnt in previous years.

Hire specialist PE teachers or qualified sports coaches to work with primary teachers when teaching PE:

- 60 Year 6 pupils went on a five day residential to the Isle of Wight based UKSA to engage in Outdoor and Adventurous Activities. It was a hugely successful trip enjoyed by all including our ESTA children with additional physical needs. The children were engaged in water sport activities and offered experiences that cannot be offered at school.
- TEN Project were due to start providing Year 2 children with 10 weeks of high quality, fun, game based tennis coaching, during the Summer Term with a free parent/child session at the weekends on public owned local community tennis courts within London boroughs. The emphasis of these sessions is on improving physical literacy of each child by introducing tennis as a fun, lifelong health, fitness and social activity.

- Born Bakori (fitness trainer) has continued his sport and fitness coaching for our ESTA and SEN pupils. This has been incredibly popular and has been credited in our parent survey and in our borough ESTA review.

Weekly additional opportunities for sport and PE are timetabled for our pupils with additional needs and forms an important part of their learning and development.
